AIM-USA: AIM is a leading manufacturer of Avionics Test Simulation Products, OEM products & superior analysis software for MIL-STD-1553, ARINC 429, et. al. (www.aim-online.com)

Arestech (via WDL): Full range of intelligent systems including embedded box PCs, industrial panel PCs, and multi-touch displays (arestech.com.tw)

Colmek.com: Qualified small business supplier of engineering services, rugged military-grade embedded computers, and other defense systems (www.colmek.com)

Concurrent Technologies: Manufacturer of rugged, high-performance mil-grade VPX, VME, cPCI, XMC & PMC modules including broad line of SOSA 3U VPX solutions (www.gocct.com)

congatec: Strongest COMs (Computer-on-Modules) Roadmap in Industry; COM Express, COM-HPC, SMARC, Qseven; also offer Mini ITX, Pico ITX & 3.5" SBCs (www.congatec.com)

Dataforth: Signal conditioning/isolation modules, power monitor modules & cost-effective MAQ-20 Data Acquisition System, optional software, N.I. VI's & Python support (www.dataforth.com)

Diamond Systems: Rugged PC/104 boards with integrated I/O (analog, digital, counter/timers), communication modules, rugged Ethernet/GbE switches, GPU options (www.diamondsystems.com)

DITHD: Display Integration Technologies rugged standalone & rackmount sunlight readable & high bright displays at affordable pricing (www.dithd.com)

ELMA Electronic: Eurocard VME/VPX/cPCI chassis solutions with optional SBCs, memory, storage, Ethernet switch/routers (www.elma.com)

Optima rugged cabinets, **Stantron** racks, Rugged/Mobile Carts, tabletop enclosures, Robomolded transit cases, accessories (www.elma.com/en/products/cabinets-and-racks)

One Stop Systems: Rugged high-performance compute/GPU & storage products with AI/ML, sensor fusion & autonomous capabilities (onestopsystems.com)

Portwell: Single-board computers, embedded computers, rackmount computers, communication appliances, & human-machine interfaces (<https://portwell.com>)

Real-Time Systems: Bare metal hypervisor provides privileged mode allowing operating systems to run in real-time thus avoiding overhead from virtualization (www.real-time-systems.com)

Sealevel Systems, Inc.: US manufacturer of rugged serial, digital & analog cellular IoT products, HMI displays, COM carrier boards & fanless embedded systems (www.sealevel.com)

UDinfo: Total-memory-solution provider; high-reliability & longevity NAND Flash & DRAM for industrial, medical & military applications (www.udinfo.com.tw)

ViaLite Communications: Manufacturer of RF over fiber for an industry-leading 5-year product warranty, ultra-wide dynamic range & low-cost ownership; fiber links to 600 km (www.vialite.com)

VITEC: IP streaming solutions give ultra-low latency and security the highest clearance from the field to headquarters (www.vitec.com)

WOLF Advanced Technology: Rugged Video Modules for Aerospace and Defense - capture, process, encode, display, AI inference - NVIDIA, AMD, Xilinx (www.wolfadvancedtechnology.com)

Serving: Ohio, Michigan, Indiana, Kentucky, West Virginia & Western Pennsylvania
Offices in: Cleveland, Detroit & Columbus
